CHRIS HARLEY

Charlotte, NC 28273 | (678) 865-3314

SUMMARY

Former U.S Army paratrooper turned musician, audio engineer and finally software engineer. I have a background in web design building small but dynamic and modern business websites using technologies like React, Node and graphQL. I have experience with user experience design and working with clients. I'm a hard worker and team player looking to join the right team and create memories.

SKILLS

HTML | CSS | Javascript | ES6 | React | Sass | NPM | Headless CMS | Node | REST API | Express | MongoDB | GraphQL | UX/UI Design | Figma

PROJECT SHOWCASE

TDTR

[LIVE](#) | [GITHUB](#)

TDTR is a full stack application using React, Node, Express, and mongoDB. This application allows wine/beer connoisseurs to log info about the different drinks they've tasted to recall at a later time. This application has full authentication built from scratch

Lucky Guy Brewing

[LIVE](#) | [GITHUB](#)

A dynamic e-commerce platform for a beer brewery using the jamstack. Designed in Figma and developed with React, Gatsby, Snipcart and Contentful CMS

SoundBoss

[LIVE](#) | [GITHUB](#)

A recording studio website using the jamstack. Designed in Figma and developed with React, Gatsby, and Airtable

The Great Dev Co

[LIVE](#) | [GITHUB](#)

Digital Agency jamstack website designed in Figma and developed with React, Gatsby, and Agility CMS

EXPERIENCE

The Great Dev Co, Charlotte — *Web Designer*

MAY 2018 – PRESENT

- Conduct client and user research to determine correct problem to solve
- Design and test prototypes with Figma
- Develop modern websites with the HTML, CSS, Javascript, and React

Luxottica, Atlanta — *Distribution Supervisor*

JUL 2017 – MAR 2018

- Managed production and daily responsibilities of approximately 80 warehouse associates and four assistant supervisors
- Ensured all associates where trained and knowledgeable of their job which increased production and service quality
- Created and maintained a digital production monitoring system which increased production as well as encouraged friendly competition

Phillips Van Heusen, Atlanta — *Operations Assistant*

JAN 2016 – JUL 2017

- Monitored associates production to ensure timely and quality production
- Developed and maintained a work material system that provided associates the correct materials immediately and increased production by more than 50%
- Provided training and daily guidance to over 100 associates on a daily basis

U.S. Army, United States — *Division Operations, Training, and Planning Manager*

JUN 2005 – OCT 2015

- Responsible for ensuring all department of defense (DOD) training requirements were met for over 400 soldiers

- Developed a training tracker with the details and dates of all DOD schools which increased training request and unit readiness
- Served as liaisons between units and senior officers to ensure all training requirements where met for a unit ready to deploy anywhere in the world within 18 hours
